STATE OF ARIZONA  
NOTES TO FINANCIAL STATEMENTS  
JUNE 30, 2012

**Note 1. - Summary of Significant Accounting Policies**

The accounting policies of the State of Arizona (State) are in conformity with Generally Accepted Accounting Principles (GAAP) as applicable to governmental units and are consistent with the Arizona Revised Statutes. Although accounts are separately maintained for each fund in the accompanying financial statements, funds that have similar characteristics have been combined into fund types. The following is a summary of the more significant accounting policies:

**A. Fund Accounting**

The State utilizes Fund Accounting to account for and report on its financial activities. A fund, which is established for a specific purpose in accordance with the law, is a separate set of self-balancing accounts that comprise its assets, liabilities, fund equity, revenues, and expenditures or expenses. Funds are grouped into three broad categories as follows:

**GOVERNMENTAL FUNDS**

GENERAL FUND	A self-balancing set of accounts used to account for all financial resources except those required to be accounted for in another fund.
SPECIAL REVENUE FUNDS	A self-balancing set of accounts used to account for the proceeds of specific revenue sources (other than expendable trusts) that are legally restricted to expenditures for specified purposes.
OTHER GOVERNMENTAL FUNDS	A self-balancing set of accounts used to account for other government financial resources except those required to be accounted for in the General Fund or designated as Special Revenue Funds.

**PROPRIETARY FUNDS**

ENTERPRISE FUNDS	A self-balancing set of accounts used to account for operations that are financed and operated in a manner similar to private business enterprises.
INTERNAL SERVICE FUNDS	A self-balancing set of accounts used to account for the financing of goods and services provided by one department to other state departments of governments.

**PERMANENT AND FIDUCIARY FUNDS**

PERMANENT FUNDS	A self-balancing set of accounts used to account primarily for activity related to grants made to the State for schools and public institutions.
FIDUCIARY FUNDS	A self-balancing set of accounts used to account for assets held by the State in a trustee capacity or as an agent for individuals, private organizations and other governments.

**B. Basis of Accounting**

The Annual Financial Report is prepared for funds on a cash basis of accounting in accordance with State law. Under the cash basis of accounting, revenues and expenditures are recognized when recorded in the State's central accounting system, the Arizona Financial Information System (AFIS). No allowance has been made to revenues or expenditures for unrecorded accounts receivable, accounts payable, deferred revenue or any other balance sheet item. Disbursements of appropriated monies, including related operating transfers, are reported as expenditures. The audited financial statements prepared in accordance with GAAP are published annually in the State's Comprehensive Annual Financial Report (CAFR).

The Tax Refund Account, Urban Revenue Sharing Fund, Excise Fund, and Cash in Lieu of Bonds Fund were added in FY12 to more accurately reflect ending General Fund Total Cash. D. Fiscal Year Reporting

In accordance with A.R.S. § 35-102, the State operates on a fiscal year beginning July 1 and ending on the subsequent June 30. This report primarily covers Fiscal Year 2012 (FY12), the fiscal period ending June 30, 2012.

STATE OF ARIZONA  
NOTES TO FINANCIAL STATEMENTS  
JUNE 30, 2012

**Note 1. - Summary of Significant Accounting Policies (Continued)**

E. Budgets and Appropriations Accounting

The State follows these procedures in establishing the budgetary data reflected in the financial statements:

1. Annually the Governor submits to the Legislature a proposed operating and capital outlay budget for the fiscal year commencing the following July 1. This document includes proposed expenditures and the means of financing them.
2. Public hearings are then conducted during legislative sessions.
3. Prior to July 1, the budget is enacted through passage and approval of bills containing appropriations.
4. Appropriation accounting is then employed as a management tool to monitor the appropriated monies.

Typically, the commitment for continuing appropriations is reported as a reservation of Fund Balance. However, in Laws 2010, 7<sup>th</sup> Special Session, Chapter 3, section 13 for FY11 and in Laws 2011, 1<sup>st</sup> Regular Session, Chapter 26, section 13 for FY12, any continuing appropriations that remained at the end of the fiscal year were to be included in the closing balance as if they had lapsed or reverted. The legislation for the FY12 requirement was subsequently repealed by Laws 2010, 2<sup>nd</sup> Regular Session, Chapter 296, section 6. Consequently, continuing appropriations were not reported as a reservation for fund balance in FY11, but have been reported in the FY12 Fund Balance. See Note 3, section C for additional information about this change in accounting policy.

F. Rounding Differences

The information shown in the detail statements has been rounded to the nearest dollar, and therefore, minor differences may be found when adding the columns down or the rows across. The rounding differences are inconsequential.

**Note 2. - Description of Financial Statements**

- A. The accompanying financial statements include a balance sheet and statements of revenues, expenditures, and changes in fund balance for the General Fund. The comparative balance sheet for the General Fund displays additional detail in arriving at the amount for total assets and liabilities. The separate line items are composed of Cash With the State Treasurer (which may include cash and cash equivalents), Cash Not With the State Treasurer, and various receivable and payable items. This presentation will provide additional transparency of the financial statements and highlight the difference between Cash and Fund Balance.
- B. The Statement of Expenditures - Appropriation to Actual, Budgetary (Legal) Basis is presented for all appropriations. The Capital Outlay Statement of Expenditures - Appropriation to Actual includes all capital appropriations for the General Fund and the Capital Outlay Stabilization Fund.
- C. Administrative Adjustments are shown as Note 9 to the financial statements.

The General Fund is presented prominently in the Annual Financial Report (AFR) due to its significance. The Statements of Revenues, Expenditures and Changes in Fund Balance are presented for all other funds accounted for on the AFIS. The statements include beginning and ending balances for the current fiscal year as well as appropriated and non-appropriated activity in each fund. See Note 5 for additional detail on these Statements.

STATE OF ARIZONA  
NOTES TO FINANCIAL STATEMENTS  
JUNE 30, 2012

**Note 3. – Statement of Expenditures – Budgetary to Actual - Description of Selected Columns**

A. Supplemental Appropriations and Adjustments

The column titled Supplemental Appropriations, Mid-Year Reversions and Adjustments shown on the Statement of Expenditures - Appropriations to Actual includes the following:

Supplemental and Special Appropriations are either the additional spending authority (appropriation) granted by the Legislature after the general appropriations act is approved or other Session Law appropriations granted by the Legislature to a State agency or department for a specific program or purpose.

Transfers and adjustments are the movements of monies or spending authority between funds, departments, programs and within programs in accordance with the Arizona Revised Statutes.

Mid-year reversions (when applicable) are the return of spending authority (appropriation) originally granted to a State agency or department through the appropriation process prior to the completion of the granted spending period.

B. Lapsed Appropriations

In accordance with A.R.S. § 35-190, except as otherwise provided by law, all appropriations lapse after the close of the fiscal year. The unused spending authority (appropriation) which was originally granted to a State agency or department through the appropriation process expires. The term “reversion” is sometimes used in reference to these lapsed appropriations. The amount of lapsed appropriations from the General Fund for FY12 is \$181,660,419 from General Operations and \$88,022 from Capital Outlay.

C. Continuing Appropriations

A continuing appropriation is a spending authority that, once established, is continuous, period after period, until amended or revoked. In the State of Arizona, continuing appropriations are primarily for construction or other projects that take longer than one year to complete. The total General Fund reserved for continuing appropriations is \$30,161,518 comprised of \$28,034,624 from General Operations and \$2,126,894 from Capital Outlay. When added to the General Fund amount restricted for the School Accountability Act, \$12,369,452, the total amount of continuing appropriations (restricted and reserved) is \$42,530,970.

**Note 4. – Other Financing Sources**

A. Temporary Transaction Privilege and Use Tax (TPT)

In a special election held on May 18, 2010, proposition 100 was approved by the voters to add a temporary 1% TPT beginning June 1, 2010. It is repealed effective May 31, 2013. For FY12, the State collected \$915,835,541 and allocated the collections as outlined in the proposition: two-thirds to public primary and secondary education; one-third to health and human services and public safety purposes. The allocations were as follows:

• Education Basic State Aid to School Districts	\$372,608,049
• Education Basic State Aid to Non-Profit Charter Schools	237,948,978
• Health and Human Services – DES Home & Community Based Services	90,945,818
• Health and Human Services – DHS Medicaid Behavioral Health	90,945,818
• Public Safety Operations	27,676,671
• Department of Corrections Private Prison Per Diem	95,710,207

STATE OF ARIZONA  
NOTES TO FINANCIAL STATEMENTS  
JUNE 30, 2012

**Note 4. – Other Financing Sources (Continued)**

B. Budget Stabilization Fund

A.R.S. § 35-144 established the Budget Stabilization Fund (BSF) in 1990. The BSF is sometimes referred to as the rainy day fund. The purpose of the BSF is to normalize the fluctuations of the State's high and low growth rates. The amount of cash transferred to or from the BSF and the General Fund - General Operations is established by statutory formula. For FY12, Laws 2012, Second Regular Session, Chapter 294, Section 116 appropriated \$250,000,000 from the state general fund to the BSF. No operating expenditures may occur in the BSF. Interest earned on pooled investments with the State Treasurer is the basic revenue source of the BSF. The beginning FY12 balance for the BSF was \$17,850. The ending FY12 balance for the BSF was \$250,063,000.

**Note 5. – Statement of Revenues, Expenditures and Changes in Fund Balance**

A.R.S. § 35-131.E, requires the AFR to include all appropriated and non-appropriated monies. The General Fund is presented prominently in the AFR due to its significance. In accordance with the revised statute, the Statement of Revenues, Expenditures and Changes in Fund Balance presents appropriated and non-appropriated activity for all other funds accounted for on the AFIS as well as beginning and ending balances for each fund. As required, this report includes non-appropriated activity in the same detail as the General Fund. The Statement includes appropriated activity when applicable for each fund but summarized within a single line item labeled "Appropriated Activity."

During the course of the report compilation, a number of funds with negative balances were noted. No analysis of the accounts that comprise the negative balances was conducted as to the cause or the resolution. The following funds were noted with negative balances:

**OTHER GOVERNMENTAL FUNDS:**

**Note 5. – Statement of Revenues, Expenditures and Changes in Fund Balance (Continued)**

For management reporting purposes, certain accrual adjustments are recorded in the AFIS. This activity is consistent with the statutory or legal basis upon which the AFR is prepared and has not been modified. Current year adjustments to prior year accruals, such as refunds of prior years' expenditures or adjustments to long-term debts or receivables, are reflected in the Fund Balance report as an adjustment to the beginning fund balance. Additionally, other entries are current year transactions and are shown as GAAP Revenue and GAAP Expenditure Offsets. Revenue offsets are frequently the result of adjustments to amounts recorded as Due to Other funds. Expenditure offsets are most commonly related to depreciation and adjustment of fixed assets. GAAP Revenue and GAAP Expenditure Offsets are recorded in the Fund Balance Report in their respective revenue and expenditure columns. Furthermore, a number of funds have year-end cash balances on the AFIS, but other balance sheet accounts offset the cash resulting in a net fund balance of zero. This occurs most commonly with the Credit Card Clearing Fund.

Fund activity in the Fund Balance Report is shown on the statewide fund level. Some funds have activity with more than one agency and the report separates the activity within the fund by agency. Funds with activity in more than one section are listed in both sections and cross-referenced. For comparison purposes and consistency with the Statement of Expenditures – Appropriation to Actual, the Department of Economic Security Federal Grant Fund has not been combined on a statewide level. Detail is provided for each separate grant type.

**Note 6. – American Reinvestment and Recovery Act (ARRA)**

The American Recovery and Reinvestment Act (ARRA) was passed by the U.S. Congress in 2009 to distribute funds in order to spur economic activity, invest in long-term growth, and increase accountability and transparency in government spending. The State of Arizona has reported expenditures of ARRA monies received by the State in accordance with the requirements set forth by the U.S. Office of Management and Budget. The ARRA revenues and expenditures are included in this report. This information, along with additional ARRA detail, can be viewed on the website at [www.recovery.gov](http://www.recovery.gov) or on the Arizona specific website at [www.AZRecovery.gov](http://www.AZRecovery.gov).

**Note 7. – Disproportionate Share Hospital Payments**

Hospitals that treat significant populations of indigent patients are eligible to participate in the Disproportionate Share Hospital Program which provides special funding to those hospitals. In the State of Arizona, the Arizona Health Care Cost Containment System, under a Section 1115 Waiver approved by the Centers for Medicare and Medicaid Services (CMS) of the U.S. Department of Health and Human Services, and the Arizona State Legislature, are authorized to make payments to Arizona hospitals that provided care to a disproportionate share of the State's indigent population. Under the approved waiver, AHCCCS transferred \$95,688,282 to the State General Fund in FY12. FY11 amounts transferred included \$27.1 million attributable to FY10 that was not previously reported in the FY10 AFR.
